EXPERIENCE

Product Engineer Deloitte Consulting	JULY 2024 - PRESENT <i>Sacramento, CA</i>
Statewide Child Welfare Referral System Led design and delivery on a cross-functional vendor team with minimal oversight, defining how residents connect to community care and how hotline staff triage and route cases.	MAR 2026 - AUG 2026
Cyber Compliance Asset Owned a client-facing product for parsing large documentation corpora, flagging stale material, and tailoring compliance monitoring to each client's regulatory domain. Shipped 130% reduction in manual review time across 16 client environments.	APR 2025 - JAN 2026
Federal Tax Account Owned two end-to-end releases, turning a fragmented legacy tax portal into an approachable, user-centric product; designed and documented the architecture that secured digital access to tax information for 36M+ users.	JAN 2025 - APR 2025

PXEL Engineering Intern West Monroe	MAY 2023 - AUG 2023 <i>Chicago, IL</i>
– Collaborated with Energy & Utility client on a web-based SaaS product that optimizes and enhances the interconnection process for distributed energy resources. – Proposed and built dynamic pages to streamline application review and management. – Development: Angular, ASP.NET, C#, Azure DevOps	

Data Analyst Intern MISO Energy	MAY 2022 - AUG 2022 <i>Carmel, IN</i>
– Automated a manual, 15-month certification process by developing a full-stack web application that ensures compliance of confidential cyber assets that are critical to the bulk electric system. – Development: Angular, Flask, Python. Production: Jenkins, BlackDuck, Fortify, Docker.	

EDUCATION

Doblin Innovation Fellowship Deloitte	MAR 2026 - PRESENT <i>Multi-city</i>
Year-long training program in public-sector innovation practice, combining project-based work with classroom training; published research in Deloitte's Center for Government Insights.	
Bachelor of Science in Computer Science Purdue University	AUG 2020 - MAY 2024 <i>West Lafayette, IN</i>
HONORS COLLEGE, SOCIOLOGY MINOR	

PROJECTS

City Circuit — <i>Fellowship Application</i>	OCT 2025 - NOV 2025
Pitched a transit-equity platform that makes planning tradeoffs visible. GTFS-based route maps with demographic overlays, simulator for commute time and emissions, and exportable visuals.	
Taste of Tippecanoe Projector Mapping — <i>Tippecanoe Arts Federation</i>	APR 2022 - JULY 2022
Generated programmed art and 3D models for video mapping with a multidisciplinary team. Used two 30k lumen projects to align art onto the Lafayette Courthouse at festival with over 35k attendees.
