PROFESSIONAL EXPERIENCE

Product Engineer

JULY 2024 - PRESENT

Deloitte Consulting

Sacramento, CA

TSA PreCheck eGates Deployment

Scaling biometric authentication gates from 8 live installations to 7 additional major airports. System integration, field configuration testing, and product readiness across deployment sites; coordinating technical team, functional launch team, and federal stakeholders.

Federal Tax Account

Owned two end-to-end releases and architected the platform enabling digital access to tax information for 36M+ users. Made core product decisions on data model, portal structure, and workflows; unified fragmented legacy systems into a cohesive, maintainable product.

Statewide Child Welfare Referral System

Owned end-to-end product delivery on a cross-functional vendor team with minimal oversight. Defined the product model and user experience for how hotline staff triage and route cases statewide.

Cyber Compliance Asset

As software engineer, owned full product lifecycle for an AI-powered compliance automation tool. Shaped product scope and UI feature prioritization; shipped an automation that is 4-5x faster than original manual process across 16 client environments and 3 regulatory domains.

Software Engineer Intern

MAY 2023 - AUG 2023

West Monroe

Chicago, IL

- Built dynamic review and management pages for a distributed energy SaaS platform, streamlining the interconnection process and improving application workflows.

Data Analyst Intern

MAY 2022 - AUG 2022

MISO Energy

Carmel, IN

- Designed and built a full-stack web application ensuring compliance of critical cyber assets in the bulk electric system, replacing a manual 15-month certification process.

EDUCATION

Doblin Innovation Fellowship

MAR 2026 - PRESENT

Deloitte

Multi-city

Year-long training program in public-sector innovation practice, combining project-based work with classroom training; published research in Deloitte's Center for Government Insights.

Bachelor of Science in Computer Science

AUG 2020 - MAY 2024

Purdue University

West Lafayette, IN

HONORS COLLEGE, SOCIOLOGY MINOR

PROJECTS

City Circuit — Fellowship Application

OCT 2025 - NOV 2025

Pitched a transit-equity platform that makes planning tradeoffs visible. GTFS-based route maps with demographic overlays, simulator for commute time and emissions, and exportable visuals.

Taste of Tippecanoe Projector Mapping — Tippecanoe Arts Federation

APR 2022 - JULY 2022

Generated programmed art and 3D models for video mapping with a multidisciplinary team. Used two 30k lumen projects to align art onto the Lafayette Courthouse at festival with over 35k attendees.
